Syracuse, New York 13215

Dear Bill:

We would like to thank you for being a part of our wedding celebration. When searching for a DJ for our event, we understood that the music was a major aspect of our reception and would determine the energy in the room and whether or not our guests were having a good time. It was important to us to find someone who was professional, knowledgeable and organized, as well as someone who would make sure all of our guests were enjoying the music. From the first time we spoke with you, we sensed your professionalism and found it easy to carry on a conversation with you. When we met with you in person to go over details, you were very flexible and willing to work through the timeline with us as well as our music selections. Between our meeting and the wedding, you were easy to get in touch with via phone and email and were very responsive to our ideas and questions.

When it came down to the actual wedding day, you completely exceeded our expectations! We cannot thank you enough for all that you did to make our wedding flow well. You knew which songs to play and when to play them. You had a good mix of oldies and new songs, fast songs and slow songs. You knew which were the "big" songs to bring people to the dance floor, and you played them at just the right times. You were a fantastic Master of Ceremony, announcing all of the "special moments", such as the father/daughter dance and the cake cutting, to make sure the guests were informed and didn't miss out on anything

We would enthusiastically recommend you to any other brides and grooms searching for the perfect DJ for their wedding. We continue to receive compliments from friends and family about what great songs were played at our wedding and how much they enjoyed all of the dancing. Thank you for making that happen and helping to give us a wonderful day of amazing memories.

Sincerely,

Dan and Hillary Harding
